PROFESSIONAL SUMMARY

Highly organized, tech-savvy remote professional with 6+ years in administrative support, customer relations, order operations, and data management for a UK online retailer (MDF Direct / Ply Direct / MFC Direct). Manages multi-channel client communication, end-to-end order processing, and accurate business records under tight deadlines. Strong foundation in database fundamentals, technical troubleshooting, information compliance, and Library and Information Science (metadata, digital libraries, RA 10173 data privacy). Professional English (C1) with daily UK client communication across chat, email, SMS, and phone.

WORK EXPERIENCE

Record Keeper / Administrative Assistant / Customer Service

June 2020 - Present

Online Retail Services Limited (MDF Direct / Ply Direct / MFC Direct) | London Area, United Kingdom (Remote)

- Provide comprehensive multi-channel customer support (LiveChat, email, SMS via JustCall, and phone) for UK retail brands, sustaining clear client communication for 6+ years in a remote, fast-paced setting.
- Manage the full order processing cycle from entry to fulfillment: prepare order documents, proof job orders for accuracy, secure client approval before production, and archive records for future reference.
- Input, organize, and maintain critical business data; build order logs, client databases, and proofing trackers in Google Workspace and Microsoft Office to protect data integrity and support audit-ready record keeping.
- Research clients and products for cold marketing and operations support, gathering specifications, organizing technical details, and keeping reference data current.
- Monitor workflows and order status in Monday.com; consistently meet tight production and response deadlines.
- Operate production press equipment to meet print-quality and productivity targets; complete additional day-to-day operational tasks that keep service continuous.

Virtual Assistant and Data Entry Specialist

2020 - 2023

Independent Client Services (Portfolio Practice) | Remote - Philippines

- Deliver virtual assistant support spanning data entry, email and LiveChat assistance, order paperwork accuracy checks, and administrative coordination for remote clients.
- Produce document preparation and basic marketing or presentation collateral in Canva, including simple visual layouts and supporting copy such as captions and product descriptions.
- Organize digital business files and data with emphasis on accuracy, consistent structure, and fast retrieval.

PROJECTS

Special Library Website (HTML/CSS)

LIS Coursework

University of Nueva Caceres - Fundamentals of Programming (LIS112L)

- Designed and built a special-library website using HTML and CSS, prioritizing clear navigation, intuitive layout, and user-centered information architecture.

Digitization Workflow for Printed Materials

LIS Coursework

University of Nueva Caceres - Preservation of Information Resources (LIS 223)

- Built a system focused on methods for digitizing physical printed materials, applying preservation principles to convert and organize analog resources for digital access.

Metadata Schema Application for Faster Retrieval

LIS Coursework

University of Nueva Caceres - Database Design for Libraries (LIS215L)

- Applied standardized metadata schemas to a collection to reduce search time and improve findability of library resources.

Thesis Data Management (Qualitative and Quantitative)

LIS Coursework

University of Nueva Caceres - Thesis/Research Writing (LIS421) and Information Processing (LIS 122)

- Managed mixed-methods thesis data for a group research project: cleaned survey data in Excel, created a data dictionary, and applied RA 10173 (Data Privacy Act) practices including consent forms and breach-response protocols for a client satisfaction study.

Competitive and Developmental Research Scan

LIS Coursework

University of Nueva Caceres - Digital Libraries and Resources (LIS 222) and Thesis/Research Writing (LIS421)

- Performed library development scanning and competitor analysis using PhilGEPS, SEC EDGE, and Google Scholar to support a research paper on digital library resources.

Hardware Documentation and Systems Support

Technical Training

STI College Cubao / Bicol State College of Applied Sciences and Technology

- Assembled, diagnosed, and repaired 20+ computer systems with documented maintenance logs, fault-report templates, and preventive maintenance schedules applicable to IT asset management.
- Installed RJ45 cabling, configured IP addressing, and set up fixed wireless broadband CPE; used multimeter testing and basic schematic reading for electronics diagnostics.
- Created failure-mode documentation for 50+ electronic components used in media preservation contexts.

EDUCATION

Bachelor of Library and Information Science

September 2023 - August 2028

University of Nueva Caceres | Naga City, Camarines Sur

- Relevant coursework: Fundamentals of Programming; Information Processing and Handling in Libraries and Information Centers; Database Design for Libraries; Thesis/Research Writing; Digital Libraries and Resources; Preservation of Information Resources.

Bachelor of Science in Electronics and Communications Engineering

August 2018 - December 2020

Bicol State College of Applied Sciences and Technology (BISCAST) | Naga City, Camarines Sur

- Completed 2 years (60+ units) prior to shifting to Library and Information Science. Coursework included Digital Logic and Computer Architecture; Basic Electronics and Circuit Analysis.

Senior High School - Computer and Communications Technology

August 2016 - April 2018

STI College Cubao | Cubao, Quezon City

- Training in computer hardware fundamentals, computer networks and data communications, troubleshooting and maintenance, and electronics fundamentals.
